Hey! I'm Atakan, a Product Designer from Türkiye. I'm the guy who designs components to help colleagues work efficiently and screens to help users achieve their goals. Currently working on Design systems at [Param](#).

Experience

Product Designer @Param, Full-time

November 2023 - Present

Freelance Product Designer

March 2022 - November 2023

- I designed a web app called [Smartcoach](#). For bootcamp.
- I also helped [Norma](#) to make their landing page responsive.
- Crafted a mobile specified navigation menu.

UX/UI Designer @ greaTR, Contract

June 2021 - September 2021 (3 Months)

GreaTR organizes events for international students in the United States, Europe, and the UK.

My part as a UX/UI Designer was to provide great experiences for users to join events and find a job.

Analyzed competitors and we designed a faster register phase to provide our features quickly.

- Collaborated to design a short and simple register flow.
- Crafted "for you" section on the home page. Users would reach out to new things according to their preferences or standard home page.
